3 Questions You Will Have

**Can I trust you
with my
dream/goal?**

Trust is something that is earned. So initially, there's nothing we can say or do to prove to you that we deserve your trust.

So let me say this...

We are a completely open book. We want to be completely up front with people from the very beginning. Check out our website, there's no members area. **EVERYTHING** you need to build a successful Business is right there for you. Not from day 1, but from **BEFORE** Day 1.

So, take your time, check it all out. Know in advance everything that you will need to do to build the business. Feel comfortable that this is going to be something that **YOU** will feel comfortable doing, **BEFORE** you make a decision.

Does that sound fair?

Can I do this?

Anybody can do this Business! But we know in advance that it's just not going to be a good fit for everybody, and that's OK.

Only you will know if this is something that is going to be the right fit for you.

When you check this out, you'll probably realise that, yes, like any genuine opportunity, this is going to take some effort on your part, it won't just magically happen. But you'll also realise, that a lot the work is already done for you. If you don't feel confident in talking to people, there's videos that you can show people that do all the talking for you.

We've spent years creating and perfecting the systems that we use. **THEY WORK!**

The result is, we have these resources that really work, that are incredibly powerful, but they're also so user friendly that anyone starting out from day 1, with no experience, that's never done anything like this before, who even may feel a little intimidated about talking to people, can actually use the resources and do this Business.

Will you help me?

Let me say, you are **NEVER** short of help in this Business. Like I said you have all the resources to help you build the Business from before Day 1. But we also know that sometimes you just want someone to hold your hand and help you through.

Well, in this Business we have the most incredible leaders that are always there and always ready to help. You may have been bought into this Business by someone who is just new themselves, so they may not know all the answers. But they're connected to someone who knows the answers! Wherever you are in this Business, know matter who recruits you, you'll always have a connection to someone who is there to help.

If you ever need anyone to help you out, reach out! Talk to the person who recruited you, if they can't help you themselves, they can get you in touch with someone who can help you.

3 Questions We Have

Are you teachable?

Are you teachable? In other words, will you follow the instructions. We're not guessing when it comes to building a successful Business. We know what to do. We have the blueprint. If you follow it, it will work!

But some people have this idea that the more complicated something is, the more likely it is to succeed. So, they try and over complicate it. Then you have other people that come in and say, oh I like this bit, don't like that, let me change this...

Good Luck with that!

We know in advance that if you follow the instructions, **IT WILL WORK!** We also know, it's kind of like going for a hike in the woods, if you go off the track, you're going to get lost! So, to make it worth both our whiles, we need to know that you're somebody who is going to follow the instructions.

Will you do this?

We give you all the information up front for you to decide if this is going to be a good fit for you. Go through it all, it's all there for you. Take all the time you need to decide if this is the right choice for you.

But once you decide that this is the path for you, if you're going to do this, then **DO** this.

This not going to take 100 hours a week to do this, but it's going to take something, maybe just a few hours per week, but done consistently.

If you make a commitment that you're going to set aside even just 3 hours per week, and you make a commitment to yourself that you're going to do that every week, you'd be amazed at what is possible with consistent application of just a few hours per week.

We give you the blueprint, we're here to help you every step of the way, all we ask is, if you decide to do this...

Will you take action?

90 days to a better life!

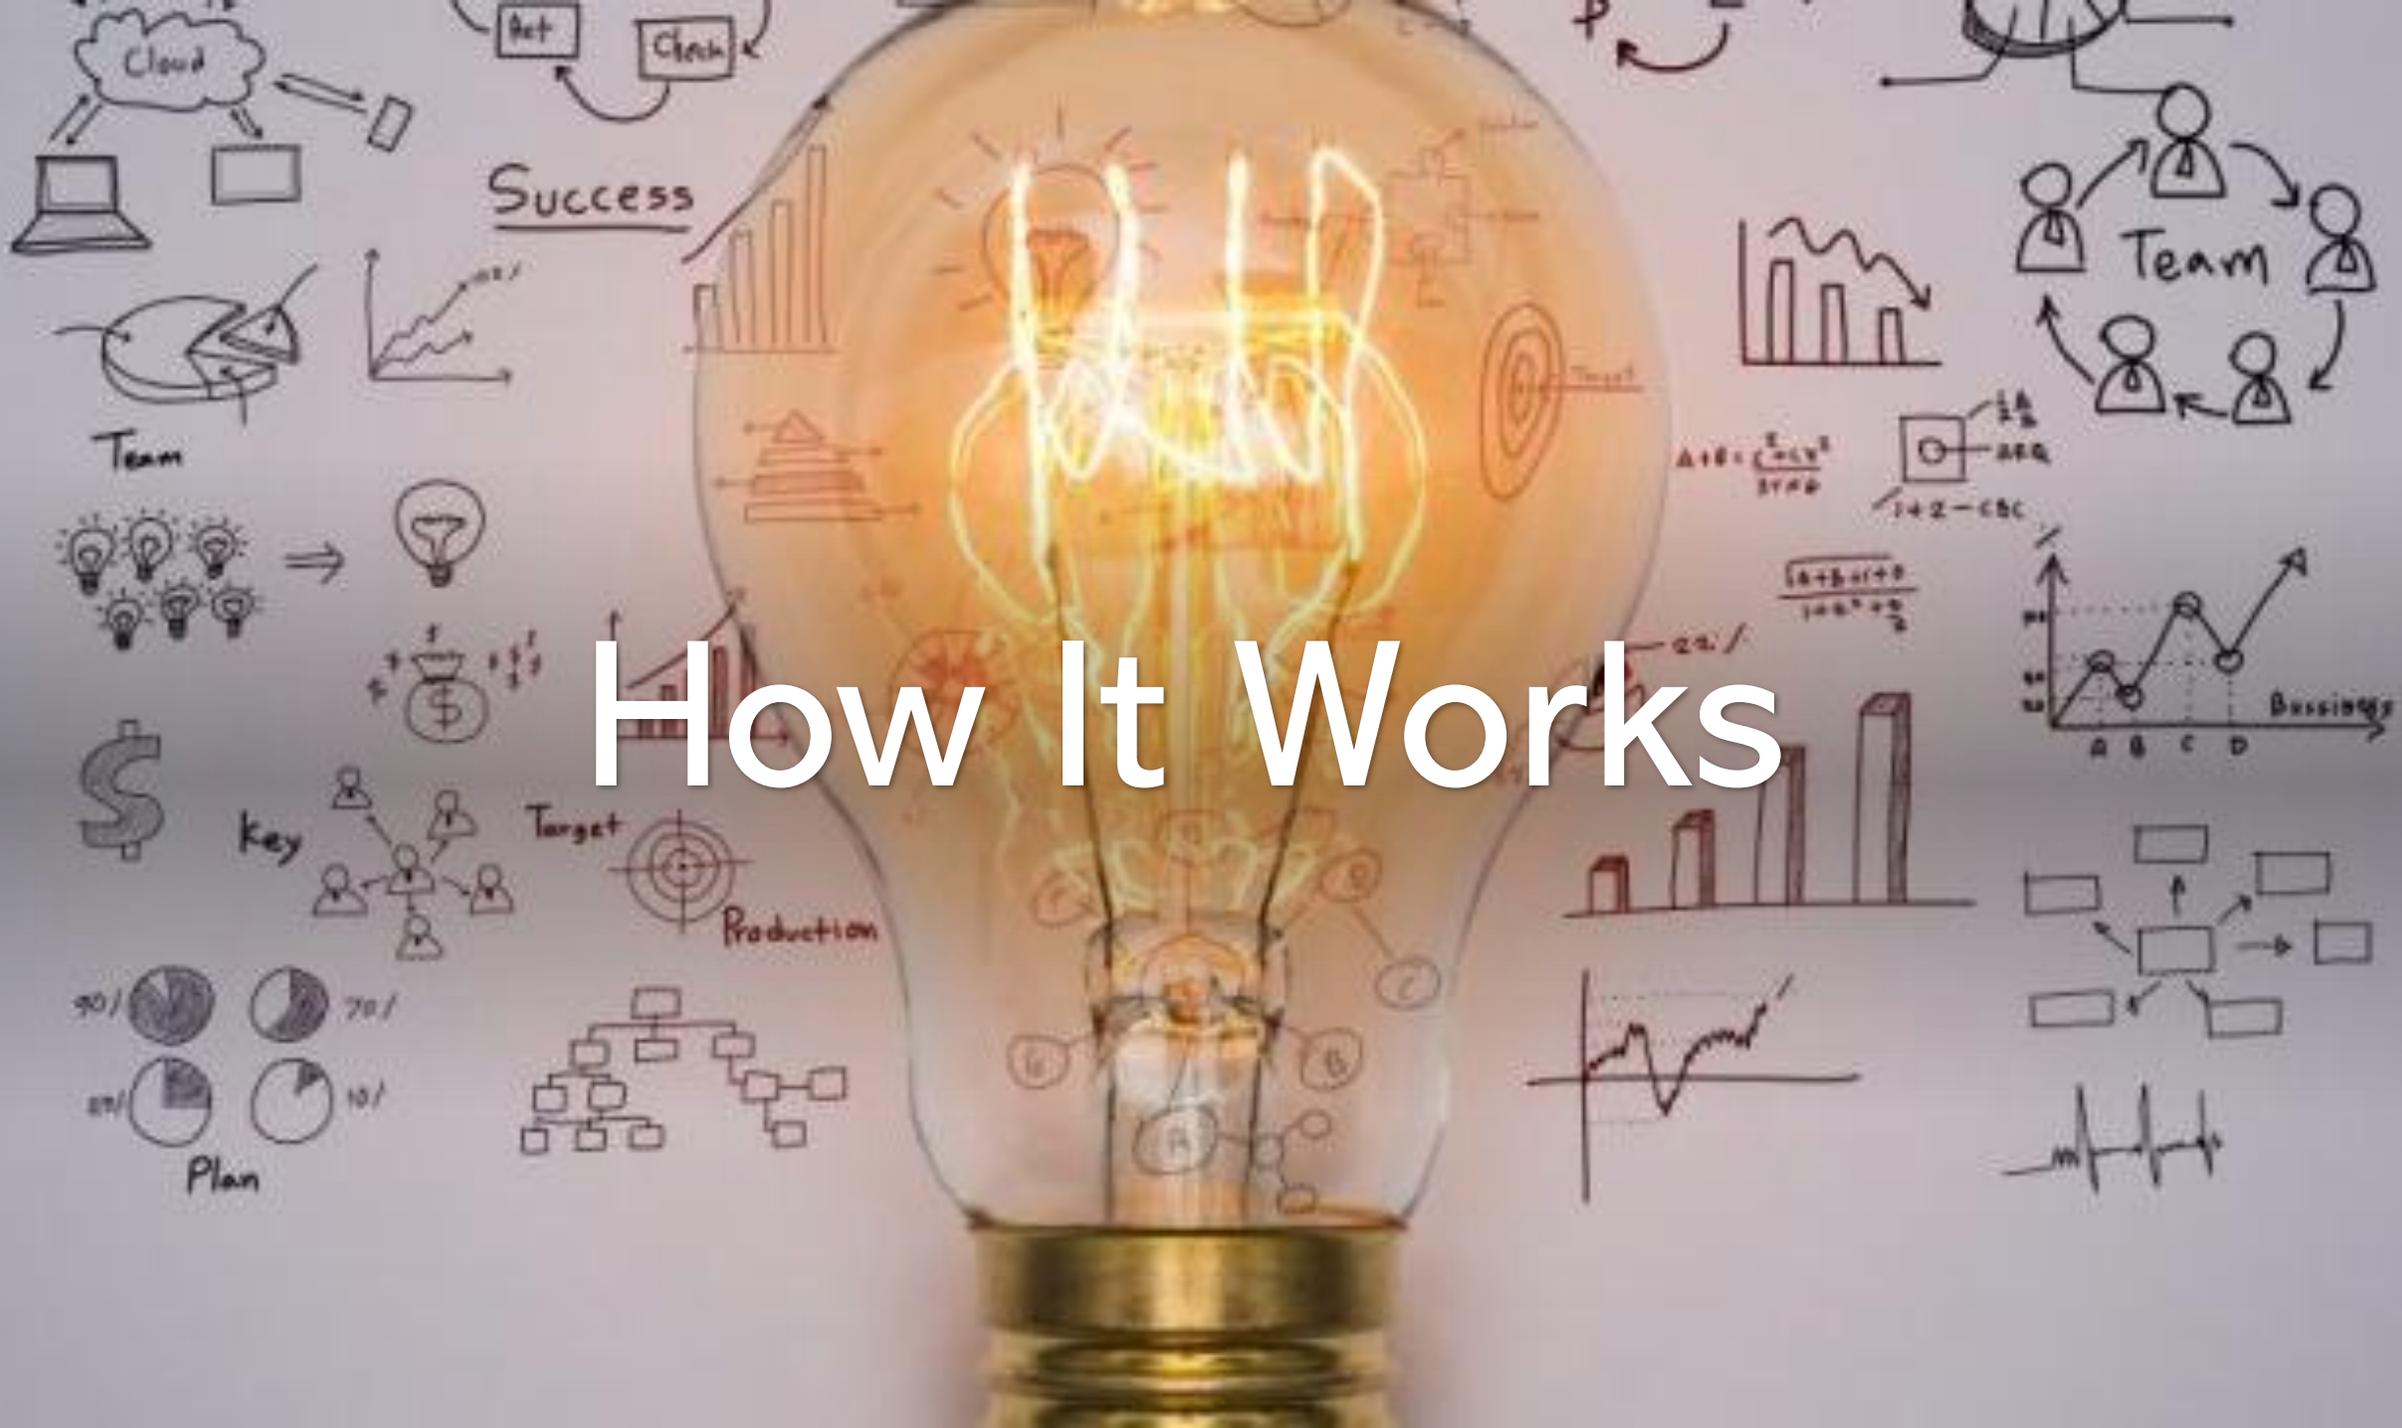

The final thing that we say is, commit to doing this for at least 90 days. If you do it for 90 days, decide it's not for you, then fine, maybe there's something else out there better for you. But you're not going to be richer than Bill Gates by next Tuesday. It amazes me how often we see people come into the Business, they do it full steam ahead for like 2 weeks and then say, "Ah this isn't working for me!", so they quit!

I would just say to people, look in all honesty, don't even bother starting, if you're not willing to stick at it for at least 90 days.

And I can tell you this...
Do this consistently for 90 days
Follow the instructions...

You can change your life **FOREVER** in just 90 days

You can enjoy all the financial and lifestyle advantages of having a successful Home Business such as more time, more money and more freedom.

As well as a backup source of income in case of emergency. Plus, Personal Development and the chance to network with other like-minded Entrepreneurs.

What we're talking about here is a Home **BUSINESS** !!

Like any business, the same rules apply to a Home Business as with any other business. To make Money, you need turnover. To generate turnover, you need products to sell and customers to sell them to!

There's no magic involved here. This is a real business where you make real money. But it does require some effort on your part. If you want to get rich without doing any work, we call that a "Unicorn Business".

The single biggest reason that people don't succeed in a Home Business is that they don't treat it like a **BUSINESS** ! They're chasing a Unicorn. They'll fall for whoever promises them a magic fairytale, and it takes them 6 months time, not to mention goodness knows how much money, before they realise Unicorn Businesses don't work. And in 6 months time, those same people are right back at the start looking for the next Unicorn.

But if you're looking for something **REAL**, that you can treat as a **REAL BUSINESS**...

And make **REAL MONEY** in return...

Then we can help you.

The Numbers
